Customer problem statements for the Personalized Travel Itinerary Planner, written from the traveller's point of view.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A solo traveller with a short weekend	Plan a balanced trip with sights and food	I spend hours comparing many websites and maps	Information is scattered and not tailored to my time and budget	Overwhelmed and rushed
PS-2	A couple planning a relaxed vacation	Get a plan that matches our pace and mood	Most suggestions are generic tourist lists	Tools do not use our vibe, pace and preferences	Unsure the trip will feel personal
PS-3	A student with a limited budget	Know the likely cost of each day before booking	Costs and travel times are not shown together	Plans do not group nearby places or show estimates	Anxious about overspending
PS-4	A traveller returning to my plan later	Save and reopen an itinerary I liked	I lose it in notes and chats	There is no simple place to store generated plans	Frustrated at repeating the work
