9	Copy as text	Copies the itinerary text for sharing	Frontend / toText	Done	Supporting
10	Cloud deployment	Frontend on Vercel, backend on Render	Deployment	Done	Core
11	User authentication	Supabase email login so trips are per user	Security	Pending	Planned
12	Regenerate a single day	Regenerate one day without changing the rest	Backend + UI	Pending	Planned
13	Group / shared trips	Group size and shared trip links	Backend + UI	Pending	Planned
14	Destination photos	Unsplash images for destinations	Frontend + API	Pending	Planned

Feature Summary

Metric	Count / Value
Total Features Planned	14
Total Features Implemented	10
Core / Must-Have Features	7 of the 10 implemented features
Additional / Nice-to-Have Features	3 implemented, 4 planned for later
Features Tested & Verified	10 (manual end-to-end testing on the live deployment)

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Preference form, saved trips list, copy as text

S.No	Category	Features in Category	Example Features
2	Backend / Logic	3	Itinerary generation, vibe personalisation, time and route ordering
3	Database / Storage	2	Save trip, delete trip
4	API / Integration	2	Destination suggestions (Groq), cloud deployment
5	Security / Authentication	0 implemented	Environment-variable secrets (done); user login (planned)
