Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	The platform did not clearly show where to find the submission requirements.	Read the project overview, workspace epics and instructions, and used the template repository for the required document format.
2	Task cards could not be moved to Completed by the student.	Moved all cards to To Be Reviewed and left the final status to the reviewer.
3	Environment variables were not set on the hosting platform at first.	Copied the keys from the local .env into Render's environment settings and redeployed.
